

July 2022

Dear Incoming Fifth Grade Families,

We are so looking forward to the upcoming year! As you probably already know, the final year of elementary school is full of both excitement and change. Your children can look forward to becoming authors, poets, artists, dancers, explorers, inventors -- and more!

While we will have some supplies available for students, there are some things we would like your child to bring on the first day of school:

We look forward to meeting you all! If you need to contact any of us, our emails are below.
